

Oil & Gas Automation & Digitalization Conference & Exhibition 2025

Sept 23 - 24, 2025 | Houston, USA

Leveraging The Technology Innovation & Digital Revolution

Our previous & current sponsors/partners:

ABOUT CONFERENCE

The Oil & Gas Automation and Digitalization Conference is a premier conference that brings together key players in the oil & gas industry to explore winning strategies and cutting-edge technologies. It serves as a vital platform for addressing current and future challenges in the upstream, midstream, and downstream sectors through digitalization. This event fosters collaboration by uniting the entire oil & gas sector with IoT, AI/ML, and digital solution providers, creating a dynamic environment for discussions on the latest developments and best practices in digital transformation.

Building on the resounding success of our 5th edition, the Oil & Gas Automation and Digitalization Conference - 2025 continues to serve as a prominent meeting place for the industry. Through interactive sessions and a focus on the latest digital developments in the oil & gas sector, the conference remains at the forefront of driving the industry's digital transformation journey towards a more efficient and sustainable future.

Data informed decision making: how to let data and intuition work in a great marriage.

- Did you know that 58% of software companies base their regular business decisions on intuition alone?
- Do you agree that these companies are endangering the future of their existence by NOT incorporating objective data in their decision making process?
- How you can improve your teams in a sustainable manner by leveraging metrics?
- The importance of metrics, which ones to choose as the most effective set in your context and how to get started with collecting all necessary data.
- How to make more effective decisions by letting data and intuition work in harmony.

Remote Operations Theme

- Focus will be 'how automation is a key enabler of remote operations'
- Remote operations strategy is where E&P operators use a centralized location to manage 100's or 1,000 of well sites
- Remote operations are a strategy where E&P operators are reducing OPEX and increasing production
- We will also reference case studies
